## The ultimate tattoo workstation.

With strong aluminium body, built-in power source, a plenty of storage space and unlimited customization possibilities, this tattoo workstation transforms the way you tattoo.

## Fully Modular.

Bearing in mind that every tattoo artist have specific needs, META workstation was built around the idea of total customization.

A set of different accessories extend its functionalities and open up the possibilite for more to come, just for you.

### 1. Back Shelf

Tray is important to be with the essential tools. To prevent contamination, back shelf is key to keep your gadgets or other tools you want to keep out of danger.

**PVP:** 60€ + VAT

### 2. Gloves Extension

Gloves are indispensable to be close to you, because you need several gloves during tattooing. We made an extension specifically to keep gloves near and to provide more space to other tools.

**PVP:** 55€ + VAT

### 3. Cups Extension

The cups used to dilute ink are instable and fall very often. So a specific cup extension gives the stability you need without concerns and more extra space for other tattoo stuff.

**PVP:** 55€ + VAT

### +20 Drawer Layouts

Each tattoo artist has his own workflow, organization and process. There's a lot of tools with different sizes and volumes. Because of it, we created a modular system so you could organize the drawers as you need. With different drawers you can keep all the different tools safe and reachable inside your workstation.

**Top Drawer Dividers (3 un):**

19€ + VAT

**Top Drawer Dividers (6 un):**

36€ + VAT

**Big Drawer Dividers (3 un):**

25€ + VAT

### Side Ink Drawers

Research informed us that the very back part of the drawers was not being used. We've decided to put that volume to better use and integrated side drawers to organize and keep all your ink bottles.

### Cable Mess? Gone.

Chaos lives on the floor of the tattoo studios with all the cables on it.

To solve that problem, we've created cable managers and holders to bring order accordingly.

**Cable managers coming soon.**

### Built-in power source.

Power is really important for you and you need it near. Due to it, we integrated a power source with 4 power sockets and 2 USB Ports to empower your tattoo machine, power supply and other devices.

**Power Plug EU:** included  
**Power Plug UK/US:** 50€+VAT
